# Installation Guide for
Adobe Photoshop CC 2015-CC2017

In this guide you will find many methods of installation:

1. Installation by **Anastasiy's Extension Manager**
2. Installation by **ZXP Installer**
3. **Manual installation** for **WINDOWS & MAC**
4. If you get message when panel run:

    'Extension could not be loaded because it was not properly signed'

5. My **e-mail** in case of problems with the installation

    Please try all methods of installation before you will write me to my e-mail.

1. Installation by Anastasiy's Extension Manager

1. Download manager from the link: http://install.anastasiy.com/

2. Setup and run Anastasiy's Extension Manager

3. Go to menu 'File - Install Extension' Open Ultimate Retouch ZXP file in the pop window.

4. You can find ZXP file in this folder **2 Panels\ 3 CC2015-CC2017\1 method** in my archive

5. Run your Photoshop and go to menu Window => Extension => Ultimate Retouch

Notice:

6. Please use **ZXP Installer** if you could not install panel by Anastasiy's Extension Manager
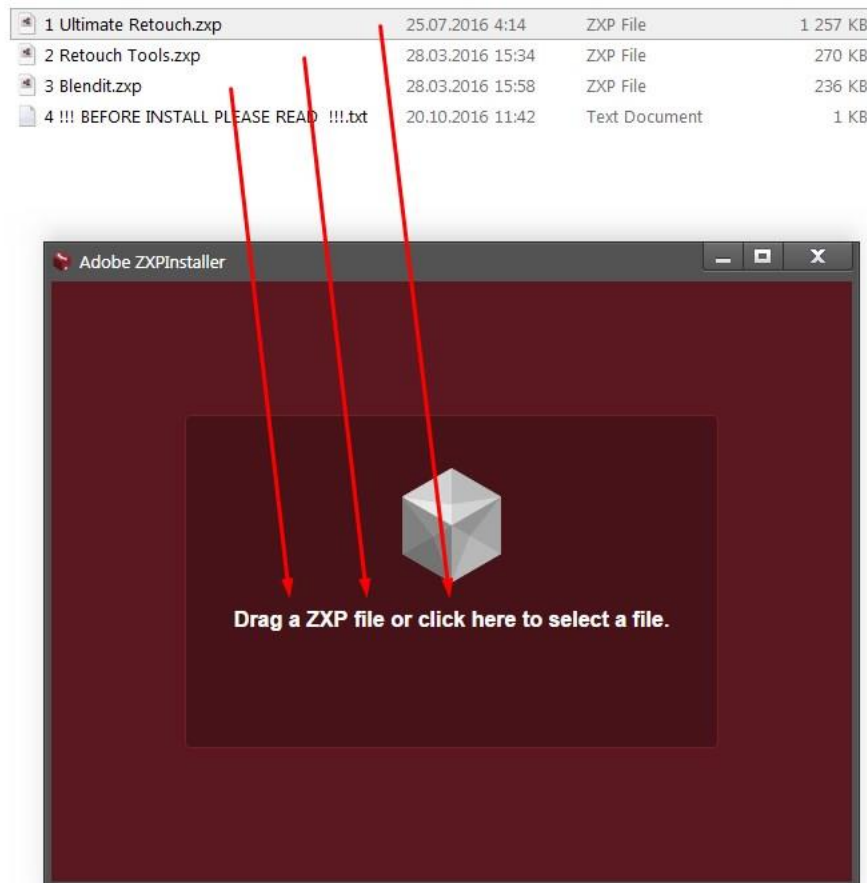

Notice for Mac:

Please see this video tutorial if you can't run
Anastasiy's Extension Manager due to an error:

'App can't be opened because it is from an unidentified developer'

**Please use other installation methods if you are unable
to install the panel by this method!**

2. Installation by ZXP Installer

1. Download installer from the link: http://zxpinstaller.com

2. Setup and run ZXP Installer

3. Open Ultimate Retouch ZXP file through ZXP Installer.

4. Drag and drop Ultimate Retouch ZXP (others panels) in window with ZXP Installer

5. You can find ZXP file in this folder **'2 Panels\3 CC2015-CC2017\2 method'** in my archive

Important:

**Check path where the ZXP file located.
In name of path should be only English characters**

6. Run your Photoshop and go to menu Window => Extension => Ultimate Retouch

Notice for Mac:

Please see this video tutorial if you can't run
ZXP Installer due to an error:

'App can't be opened because it is from an unidentified developer'

**Please use other installation methods if you are unable
to install the panel by this method!**
